They appear in a number of places throughout this prospectus and the documents incorporated by reference in this prospectus, and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our operations, prospects, strategies, and the industry in which we operate. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, of course, it is impossible for us to anticipate all factors that could affect our actual results. Forward-looking statements should not be read as a guarantee of future performance or results and may not be accurate indications of when such performance or results will be achieved. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this prospectus may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements.

If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements. You should read this prospectus, the documents incorporated by reference in this prospectus, and the documents that we reference in this prospectus and have filed with the SEC as exhibits to the registration statement of which this prospectus is a part with the understanding that our actual future results, levels of activity, performance and events and circumstances may be materially different from what we expect. All forward-looking statements are based upon information available to us on the date of this prospectus.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition, business and prospects may differ materially from those made in or suggested by the forward-looking statements contained in this prospectus. In addition, even if our results of operations, financial condition, business and prospects are consistent with the forward-looking statements contained (or incorporated by reference) in this prospectus, those results may not be indicative of results in subsequent periods.

Forward-looking statements necessarily involve risks and uncertainties, and our actual results could differ materially from those anticipated in the forward-looking statements due to several factors, including those set forth under the heading “Risk Factors” in our most recent Annual Report on Form 10-K filed with the SEC, as such risk factors may be amended, supplemented, or superseded from time to time by other reports we file with the SEC, including subsequent Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q, and the risk factors described under the caption “Risk Factors” in any applicable prospectus supplement. See “Where You Can Find More Information” and “Information Incorporated by Reference.” The factors set forth below under “Risk Factors” and other cautionary statements made in this prospectus should be read and understood as being applicable to all related forward-looking statements wherever they appear in this prospectus. The forward-looking statements contained in this prospectus represent our judgment as of the date of this prospectus. We caution readers not to place undue reliance on such statements. General

Over the past 16 years, we have grown into a leading diversified alternative asset management firm, with more than \$2.6 billion in Managed Assets, comprised of \$0.8 billion of assets under management ("AUM") and \$1.9 billion of assets under development ("AUD").

We are an alternative asset manager investing across real and digital assets. We sponsor and manage private real estate investment funds and maintain a digital asset treasury strategy focused on blockchain infrastructure assets. Our primary goal is to drive shareholder value by enhancing the wealth of accredited investor clients seeking to make investments in real and digital assets.

In 2025, we formally adopted a Board-approved digital asset treasury policy (the "Treasury Reserve Policy") under which we accumulate and manage digital infrastructure assets, starting with Chainlink tokens ("LINK"). The digital asset treasury strategy is designed to complement our core real estate investment platform by providing exposure to blockchain-based financial infrastructure and generating yield through staking activities. Digital asset treasury income may consist of staking rewards and other income derived from treasury digital asset holdings. While our real estate platform remains our core business, we believe exposure to digital infrastructure assets positions us for the long-term evolution of tokenized real-world asset markets.

For multi-family residential and multi-tenant industrial assets, we are regionally focused on growth-oriented markets, namely Arizona, Colorado and Texas. For our hospitality platform, we invest throughout the United States with a specific focus on markets that have experienced population and job growth in recent years.

Our competitive advantage is driven by several elements of our platform:

- The combination of an institutional-grade investment management platform with boutique, middle-market fund sizes and real estate projects.
- Our in-house shared services group, which offers greater operational control and visibility into investment opportunities.
- Our in-house fundraising infrastructure, allowing us to serve a broad range of investors and institutions.

We define middle-market in two ways. First, by the size of investments. We typically pursue projects between \$5.0 million and \$50.0 million per asset. Second, by the size of the investment funds. We typically offer approximately \$200.0 million for a multi-asset discretionary fund and \$5.0 million to \$20.0 million for a single asset syndication. In addition, we are building the Caliber Hospitality Trust ("CHT"), a middle-market hotel investment company utilizing the UPREIT strategy, with expectations that CHT may seek a public listing if its assets under management exceed \$1.0 billion.

As an alternative asset manager, we offer a full suite of support services and employ a vertically integrated approach to investment management. Our asset management activities are complemented by transaction and advisory services, including development and construction management, acquisition and disposition services, brokerage activities, and fund formation services.

On May 2, 2025, the Company effected a one-for-twenty (1-for-20) reverse stock split of its common stock (the "Reverse Stock Split"). The Reverse Stock Split did not change the authorized number of shares or the par value of the Common Stock nor modify any voting rights of the Common Stock.

Asset Management Revenues

We earn the following fees from providing these services under our asset management platform (the "Platform"):

- Organizational and offering fees include fund set-up fees earned during the initial formation, administration, and set-up of fund products we distribute and manage. These fees are recognized at a point in time when performance obligations are satisfied.
- Fund management fees are generally based on 1.0% to 1.5% of the unreturned capital contributions in a particular fund and include reimbursement for certain costs incurred on behalf of the fund. These customer contracts require us to provide management services, that represent performance obligations satisfied over time. With respect to CHT, we earn a fund management fee of 0.7% of CHT's enterprise value and are reimbursed for certain costs incurred on its behalf.
- Financing fees are earned for securing third-party financing on behalf of our private equity real estate funds and are recognized at a point in time upon loan closing. We may also earn fees for guaranteeing certain loans, which are recognized over time.
- Real estate development revenues are generally based on two fee-based contracts, not to exceed an aggregate of 6%. The first, a real estate development contract that provides for up to 4.0% of the total expected costs of the development and is paid for services performed by Caliber Development, LLC as the principal developer of our projects. These services may include obtaining new entitlements or zoning changes and managing and supervising third-party developers. The second, a construction management contract that provides for up to 4.0% of the total expected costs of the construction project for services provided managing general contractors with respect to the construction of the properties owned by the funds. Prior to the commencement of construction, development fee revenue is recognized at a point in time as the related performance obligations are satisfied and the customer obtains control of the promised service, including negotiation, due diligence, entitlements, planning, and design activities. During the construction period, construction management fee revenue is recognized over time as the performance obligations are satisfied.
- Brokerage fees are earned at fixed rates for services related to acquisitions, dispositions, leasing and financing transactions and are recognized at a point in time when services are completed.

Performance Allocations

Performance allocations represent our contractual share of investment returns generated within the investment funds we manage. We typically receive 15.0% to 35.0% of cash distributions from (i) the operating cash flow of each fund, after payment to the related fund investors of any accumulated and unpaid priority preferred returns and repayment of preferred capital contributions; and (ii) the cash flow resulting from the sale or refinance of any real estate assets held by each fund, after payment to the related fund investors of any accumulated and unpaid priority preferred returns and repayment of initial preferred capital contributions. Preferred returns across our funds generally range from 6.0% to 12.0%.

Performance allocations are recognized in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) when it is determined that they are no longer probable of significant reversal, which generally occurs upon close of asset sales or refinancings. Many alternative asset managers qualify for investment company accounting which renders comparability to our financial performance difficult. Annually, we re-evaluate our conclusions regarding the application of investment company accounting. Under investment company accounting, among other adjustments, we would recognize the portion of any performance allocations earned in the year as unrealized gains and losses. Given the vertical nature of our business and the significant activities we generate revenue on, we do not qualify for investment company accounting. However, if we were to qualify, we would have recognized approximately \$16.3 million in unrealized gains in the current year.

Performance allocations are inherently variable and depend on asset-level performance and realization events. There can be no assurance that projected performance allocations will be realized.

Managed Assets

We have \$2.6 billion in Managed Assets, comprised of AUM and AUD. AUD includes development, redevelopment, construction, and entitlement projects that are underway or in planning stages. This category includes projects to be built on undeveloped land, including projects under contract for purchase by our funds.

As of December 31, 2025, we are actively developing 1,796 multifamily units, 697 single family units, 3.7 million square feet of commercial and industrial space, and 3.5 million square feet of office and retail space. If these projects are completed, total capitalized costs are currently estimated to be \$1.9 billion, and are expected to be funded through a combination of undeployed fund cash, third-party equity, project sales, tax credit financing and secured debt financing.

Completing these development activities may ultimately result in income-producing assets, assets we may sell to third parties, or both. If we complete all AUD at December 31, 2025, up through sale, we estimate the Company could earn \$104.2 million in performance allocations.

We are under no obligation to complete these projects and may dispose of any such assets at any time. There can be no assurance that AUD will ultimately be developed or constructed because of the nature of the cost of the approval and development process and market demand for a particular use. The development of these assets requires significant additional financing and are subject to market conditions, entitlement risks, construction risks and access to capital. Similarly, total costs to complete a project could change or the future selling price could be different than projected, thus there is no assurance that performance allocations will be realized.

Digital Asset Treasury Strategy

Overview

Our digital asset treasury strategy is governed by formal policies adopted by our Board of Directors. The strategy is intended to:

- Provide exposure to blockchain infrastructure assets
- Generate staking yield
- Align our treasury strategy with technological infrastructure supporting tokenized asset markets
- Complement our real asset investment platform

We are evaluating potential applications of blockchain technology within our real estate investment platform, including initiatives designed to improve operational efficiency, investor servicing, and accessibility. These efforts may include the tokenization of real-world assets, such as real estate projects and fund interests, to facilitate fractional ownership, enhance liquidity, and streamline investor reporting and fund administration. We also believe that tokenized offerings may represent an additional capital formation channel, enabling us to reach a broader base of global investors through compliant, blockchain-enabled investment structures.

Digital assets are subject to significant market volatility, regulatory uncertainty, technological risk and custodial considerations. We maintain internal controls and governance procedures designed to manage these risks; however, there can be no assurance that digital asset holdings will not experience material fluctuations in value.

Digital Asset Treasury Holdings

Our digital asset treasury is currently comprised of only LINK. We currently do not have a specific target for the amount or type of digital asset holdings we intend to acquire and hold.

As further discussed below, our digital asset treasury holds LINK solely on the Ethereum blockchain.

Chainlink and LINK Overview

Chainlink enables smart contracts to interact with external data, offchain computation, and systems across blockchains through decentralized oracle infrastructure. Chainlink services are powered by Decentralized Oracle Networks (“DONs”), which consist of multiple independent node operators that aggregate data, computations, and reports before delivering results onchain. Different DONs can perform different predefined tasks, including providing attestations regarding offchain data or real-world events.

LINK is the native token of the Chainlink network. It is used to pay for Chainlink services, including oracle and related network services, and it is also used in Chainlink Staking to support security and enable eligible participants to earn rewards. LINK is an ERC-677 compatible token originally deployed on Ethereum. LINK may also be transferred across supported chains using the Chainlink Cross-Chain Interoperability Protocol (“CCIP”) and CCIP-powered applications.

Chainlink Staking Activities and Revenues

We intend to generate staking and other revenue from participating in the Chainlink ecosystem through being Community Stakers (as discussed below). We intend to allocate a significant portion of our LINK holdings to be staked through certain limited node operators. Management estimates it may earn a net yield of approximately 3% to 9% annualized, based upon internal estimates of the potential to stake our LINK treasury.

Chainlink Staking is a security mechanism designed to enhance the security and reliability of Chainlink’s oracle services. In Chainlink Staking, node operators (“Node Operator Stakers”) and community members (“Community Stakers”) stake (i.e., lock up) LINK in exchange for receiving staking rewards.

Staking reward rates vary because a fixed amount of rewards are made available to the staking protocol (currently v0.2) per unit of time, regardless of how much aggregate LINK is staked in the protocol.

Community Stakers earn base rewards for securing the network by staking LINK, and they can earn additional rewards through additional activities, including by providing timely and valid alerts about DON performance. Automatically, Community Stakers have their stake delegated to Node Operator Stakers (without the operators taking control of such staked LINK), and 4% of Community Staker rewards are directed to the operators as a Delegation Reward in exchange for performing oracle computation on behalf of Community Stakers.

Node Operator Stakers also earn base rewards for securing the network and performing oracle computation, with their rewards supplemented by the Delegation Rewards as discussed above, which are made available to Node Operator Stakers proportionally based on the amount each operator stakes.

Attributed Rewards are earned by stakers during their participation in staking, which are composed of “Claimable Rewards” and “Locked Rewards”. Claimable Rewards can be claimed by stakers at any time without penalty. Locked Rewards turn into Claimable Rewards over a period of time known as the ramp-up period. The ramp-up period is a 90-day period, tracked individually for each staker, that starts at 0% when a staker first stakes and linearly increases to 100% of the possible reward rate. The percentage of claimable Attributed Rewards is proportional to the amount of time spent in the ramp-up period. When unstaking LINK before the full ramp-up period has been completed, any Locked Rewards turn into “Forfeited Rewards”, which are forfeited and become available for all stakers in the same category.

Chainlink Staking v0.2 offers increased security by supporting the ability to slash (forfeit) a portion of staked LINK by Node Operator Stakers who help power oracle services secured by staking. Community Stakers, and Node Operator Stakers only serving oracle services not secured by staking, will not be at risk of slashing.

We use Coinbase Prime, the institutional product of Coinbase Custody Trust Company, LLC (“Coinbase Custody”), to trade, custody, stake and manage our digital assets. Of our LINK, Coinbase Prime holds approximately 100% in hot wallets. Coinbase Custody is chartered as a limited purpose trust company by the New York State Department of Financial Services. 100% of our LINK holdings are custodied by Coinbase Custody, and none of our LINK were staked as of December 31, 2025.

Current and Expected Digital Asset Treasury Holdings

At December 31, 2025, the Company held 562,535 LINK with a cost basis of \$12.6 million and a fair value of \$6.8 million. All LINK were acquired during the year ended December 31, 2025, and the Company has not sold any of its LINK holdings as of that date.

Implications of Being an “Emerging Growth Company”

We are an “emerging growth company” as defined under the federal securities laws. For so long as we remain an emerging growth company, we are permitted to rely on exemptions from specified disclosure requirements that are applicable to other public companies that are not emerging growth companies. These exemptions include the following:

- not being required to comply with the auditor attestation requirements in the assessment of our internal controls over financial reporting;
- not being required to comply with any requirement that may be adopted by the Public Company Accounting Oversight Board regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements;
- reduced disclosure obligations regarding executive compensation; and
- exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

An emerging growth company may delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have irrevocably elected not to take advantage of the extended transition period for complying with new or revised accounting standards provided to emerging growth companies.

We will remain an emerging growth company until the earliest of (i) the last day of the fiscal year following the fifth anniversary of the completion of our IPO, (ii) the last day of the first fiscal year in which our annual gross revenues exceed \$1.235 billion, (iii) the date on which we have, during the immediately preceding three-year period, issued more than \$1.0 billion in non-convertible debt securities and (iv) the end of any fiscal year in which the market value of our common stock held by non-affiliates exceeds \$700 million as of the end of the second quarter of that fiscal year.

Implications of Being a Smaller Reporting Company

We are a “smaller reporting company” as defined in Rule 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our shares held by non-affiliates equals or exceeds \$250 million as of the prior June 30th, or (2) our annual revenues equaled or exceeded \$100 million during such completed fiscal year and the market value of our shares held by non-affiliates equals or exceeds \$700 million as of the prior June 30th. Such reduced disclosure and corporate governance obligations may make it more challenging for investors to analyze our results of operations and financial prospects.

If any of these risks occur, our business, financial condition and operating results could be harmed, the trading price of our Class A common stock could decline and you could lose part or all of your investment.

Preferred Stock

Series A Preferred Stock

On November 26, 2024, we filed the Series A Certificate of Designation with the Secretary of State of the State of Delaware to establish the preferences, voting powers, limitations as to dividends or other distributions, qualifications, terms and conditions of redemption and other terms and conditions of the Company's Series A Preferred Stock. On April 9, 2026, we amended the Series A Certificate of Designation. The Series A Preferred Stock is subject to certain rights, preferences, privileges, and obligations, including voluntary and mandatory conversion provisions, as well as beneficial ownership restrictions and share cap limitations, as set forth in the Series A Certificate of Designation. The following is a summary description of the terms and the general effect of the issuance of the shares of Series A Preferred Stock on the Company's other classes of registered securities.

Stated Value. Each share of Series A Preferred Stock has an initial stated value of \$400.00, subject to appropriate adjustment in relation to certain events, such as recapitalizations, stock dividends, stock splits, stock combinations, reclassifications or similar events affecting our Series A Preferred Stock.

Dividends. The holders of the shares of Series A Preferred Stock will be entitled to receive a twelve percent (12%) annual, non-cumulative dividend payable annually, at the Company's option, (i) in cash or (ii) in shares of the Company's Class A common stock, at a price per share of Class A Common Stock equal to the lower of (A) the average closing price of Class A Common Stock as quoted on the principal trading market, if any, in which the shares of Class A Common Stock then trade ("Principal Market") for the five trading days immediately preceding the date of issuance, or (B) the closing price of the Class A Common Stock as quoted on the Principal Market on the trading day prior to the date of issuance, but in no event less than \$20.00 per share.

Optional Conversion. At any time and from time to time, a holder of the shares of Series A Preferred Stock may, at its option, convert (i) up to thirty three and one-third percent (33.3%) of the holder's total shares of Series A Preferred Stock (the "First Tranche Convertible Shares") at a rate equal to the stated value divided by \$2.50 (the "First Tranche Conversion Rate"), (ii) up to thirty three and one-third percent (33.3%) of the holder's total shares of Series A Preferred Stock (the "Second Tranche Convertible Shares") at a rate equal to the stated value divided by \$3.50 (the "Second Tranche Conversion Rate"), and (iii) up to thirty three and one-third percent (33.3%) of the holder's total shares of Series A Preferred Stock (the "Third Tranche Convertible Shares") at a rate equal to the stated value divided by \$4.50 (the "Third Tranche Conversion Rate").

Voting Rights. The Series A Preferred Stock will have no voting rights relative to matters submitted to a vote of our stockholders (other than as required by law). However, we may not, without the affirmative vote or written consent of the holders of a majority of the then issued and outstanding Series A Preferred Stock: (i) amend or waive any provision of the certificate of designation or otherwise take any action that modifies any powers, rights, preferences, privileges or restrictions of the Series A Preferred Stock (other than an amendment solely for the purpose of changing the number of shares of Series A Preferred Stock designated for issuance as provided in the certificate of designation); (ii) authorize, create or issue shares of any class of stock having rights, preferences or privileges as to dividends or distributions upon a liquidation that are superior to the Series A Preferred Stock; or (iii) amend our certificate of incorporation in a manner that adversely and materially affects the rights of the Series A Preferred Stock.

Liquidation. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, the holders of shares of the Series A Preferred Stock then outstanding will be entitled to receive in cash out of the assets of the Company, whether from capital or from earnings available for distribution to its stockholders, before any amount will be paid to the holders of any of the capital stock of the Company of any class junior in rank to the Series A Preferred Stock.

Ranking. The Series A Preferred Stock ranks senior to our Series B Preferred Stock, Class A Common Stock and Class B common stock and pari passu with our Series AA Preferred Stock, with respect to the preferences provided for in the Certificate of Designation as to distributions and payments upon the liquidation, dissolution and winding up of the Company.

Redemption. The Company has the right to redeem the outstanding shares of the Series A Preferred Stock at an amount equal to the Liquidation Preference, provided that the holders of Series A Preferred Stock are granted thirty (30) calendar days to first exercise their conversion rights. "Liquidation Preference" means, with respect to each outstanding share of Series A Preferred Stock, the sum of: (i) the amount of all accrued but unpaid dividends on such share; plus (ii) the product of the stated value multiplied by 120%.

Amendments. The Certificate of Designation may be amended by obtaining the affirmative vote of a majority of the outstanding shares of Series A Preferred Stock, voting separately as a single class.

Series AA Preferred Stock

On March 5, 2025, we filed a certificate of designation with the Delaware Secretary of State to establish our Series AA Preferred Stock which we designated as "Series AA Cumulative Redeemable Preferred Stock." Our Series AA Preferred Stock has the following voting powers, designations, preferences and relative rights, qualifications, limitations, or restrictions:

Ranking. The Series AA Preferred Stock ranks, as to dividend rights and rights upon our liquidation, dissolution, or winding up, senior to our Series B Preferred Stock, Class A Common Stock and Class B common stock and pari passu with our Series A Preferred Stock. The terms of the Series AA Preferred Stock do not limit our ability to (i) incur indebtedness or (ii) issue additional equity securities that are equal or junior in rank to the shares of our Series AA Preferred Stock as to distribution rights and rights upon our liquidation, dissolution or winding up.

Stated Value. Each share of Series AA Preferred Stock has an initial stated value of \$25.00, which is equal to the offering price per share, subject to appropriate adjustment in relation to certain events, such as recapitalizations, stock dividends, stock splits, stock combinations, reclassifications or similar events affecting our Series AA Preferred Stock.

Dividend Rate and Payment Dates. Dividends on the Series AA Preferred Stock are cumulative and payable monthly in arrears to all holders of record on the applicable record date. Holders of our Series AA Preferred Stock are entitled to receive cumulative monthly cash dividends at a per annum rate of 9.5% of the stated value (or \$0.198 per share each month based on the initial stated value). Dividends on each share begin accruing on, and are cumulative from, the date of issuance and regardless of whether our board of directors declares and pays such dividends. Our board of directors will not authorize, pay or set apart for payment by us any dividend on the Series AA Preferred Stock at any time that:

- the terms and provisions of any of our agreements, including any agreement relating to our indebtedness, prohibits such authorization, payment or setting apart for payment;
- the terms and provisions of any of our agreements, including any agreement relating to our indebtedness, provides that such authorization, payment or setting apart for payment thereof would constitute a breach of, or a default under, such agreement; or
- the law restricts or prohibits the authorization or payment.

Dividends on shares of our Series AA Preferred Stock will continue to accrue even if

- the terms and provisions of any of our agreements relating to our indebtedness prohibit such authorization, payment or setting apart for payment;
- we have earnings;
- there are funds legally available for the payment of the dividends; and
- the dividends are authorized.

In the event the monthly payment of dividends is not made within 30 days of the due date, dividends will accrue from the due date of such monthly payment at the rate of 18% until such default is cured.

Liquidation Preference. Upon a liquidation, dissolution or winding up of our company, holders of shares of our Series AA Preferred Stock are entitled to receive, before any payment or distribution is made to the holders of our Common Stock and on a pari passu basis with holders of our Series AA Preferred Stock and Series A Preferred Stock, a liquidation preference equal to the stated value per share, plus accrued but unpaid dividends thereon.

Redemption Request at the Option of a Holder. Once per calendar quarter, a holder will have the opportunity to request that we redeem that holder's Series AA Preferred Stock. Our board of directors may, however, suspend cash redemptions at any time in its discretion if it determines that it would not be in the best interests of our Company to effectuate cash redemptions at a given time because we do not have sufficient cash, including because our board believes that our cash on hand should be utilized for other business purposes. Redemptions will be limited to four percent (4%) of the total outstanding Series AA Preferred Stock per quarter and any redemptions in excess of such limit or to the extent suspended, shall be redeemed in subsequent quarters on a first come, first served, basis. We will redeem shares at a redemption price equal to the stated value of such redeemed shares, plus any accrued but unpaid dividends thereon, less the applicable redemption fee (if any). As a percentage of the aggregate redemption price of a holder's shares to be redeemed, the redemption fee shall be:

- 10% if the redemption is requested on or before the first anniversary of the original issuance of such shares;
- 8% if the redemption is requested after the first anniversary and on or before the second anniversary of the original issuance of such shares; and
- 6% if the redemption is requested after the second anniversary and on or before the third anniversary of the original issuance of such shares.

Please see the certificate of designation, which has been filed as an exhibit to the offering statement of which this offering circular forms a part, for the procedures to request a redemption.

Optional Redemption by our Company. We have the right (but not the obligation) to redeem shares of Series AA Preferred Stock at a redemption price equal to the stated value of such redeemed shares, plus any accrued but unpaid dividends thereon.

Mandatory Redemption by our Company. We are required to redeem the outstanding shares of Series AA Preferred Stock on the third (3rd) anniversary of their issuance at a redemption price equal to the stated value of such redeemed shares, plus any accrued but unpaid dividends thereon.

Optional Repurchase Upon Death, Disability or Bankruptcy of a Holder. Subject to certain restrictions and conditions, we will also repurchase shares of Series AA Preferred Stock of a holder who is a natural person (including an individual beneficial holder who holds shares through a custodian or nominee, such as a broker-dealer) upon his or her death, total disability or bankruptcy, within sixty (60) days of our receipt of a written request from the holder or the holder's estate at a repurchase price equal to the stated value, plus accrued and unpaid dividends thereon. A "total disability" means a determination by a physician approved by us that a holder, who was gainfully employed and working at least forty (40) hours per week as of the date on which his or her shares were purchased, has been unable to work forty (40) or more hours per week for at least twenty-four (24) consecutive months. Please see the certificate of designation, the form of which has been filed as an exhibit to the offering statement of which this offering circular forms a part, for the procedures to request a repurchase.

Restrictions on Redemption and Repurchase. We are not obligated to redeem or repurchase shares of Series AA Preferred Stock if we are restricted by applicable law or our articles of incorporation from making such redemption or repurchase or to the extent any such redemption or repurchase would cause or constitute a default under any borrowing agreements to which we or any of our subsidiaries are a party or otherwise bound. In addition, we have no obligation to redeem shares in connection with a redemption request made by a holder if we determine, as of the redemption date, that we do not have sufficient funds available to fund that redemption. In this regard, we will have complete discretion under the certificate of designation for the Series AA Preferred Stock to determine whether we are in possession of "sufficient funds" to fund a redemption request. To the extent we are unable to complete redemptions we may have earlier agreed to make, we will complete those redemptions promptly after we become able to do so, with all such deferred redemptions being satisfied on a first come, first served, basis.

Voting Rights. The Series AA Preferred Stock has no voting rights relative to matters submitted to a vote of our stockholders (other than as required by law). However, we may not, without the affirmative vote or written consent of the holders of a majority of the then issued and outstanding Series AA Preferred Stock: (i) amend or waive any provision of the certificate of designation or otherwise take any action that modifies any powers, rights, preferences, privileges or restrictions of the Series AA Preferred Stock (other than an amendment solely for the purpose of changing the number of shares of Series AA Preferred Stock designated for issuance as provided in the certificate of designation); (ii) authorize, create or issue shares of any class of stock having rights, preferences or privileges as to dividends or distributions upon a liquidation that are superior to the Series AA Preferred Stock; or (iii) amend our certificate of incorporation in a manner that adversely and materially affects the rights of the Series AA Preferred Stock.

Conversion Right. At the third anniversary of the issuance date of a share of Series AA Preferred Stock, a holder may elect, with the prior written consent of the Company, which consent may be unreasonably withheld, to convert all or any portion of such then outstanding shares of Series AA Preferred Stock held by it into that number of shares of our Class A Common Stock determined by dividing the then Stated Value of such shares by the closing price of our Class A Common Stock as quoted on the Nasdaq Capital Market (the “NCM”) on the day prior to such date but in no event less than the closing price of our Class A Common Stock as quoted on the NCM on the day prior to the initial Closing Date.

Series B Preferred Stock

On September 11, 2025, we filed the Series B Certificate of Designation with the Secretary of State of the State of Delaware to establish the preferences, voting powers, limitations as to dividends or other distributions, qualifications, terms and conditions of redemption and other terms and conditions of the Company’s Series B Preferred Stock. The Series B Preferred Stock is subject to certain rights, preferences, privileges, and obligations, including voluntary conversion provisions, as well as beneficial ownership restrictions and share cap limitations, as set forth in the Series B Certificate of Designation. The following is a summary description of the terms and the general effect of the issuance of the shares of Series B Preferred Stock on the Company’s other classes of registered securities.

Stated Value. Each share of Series B Preferred Stock has an initial stated value of \$1,000, subject to appropriate adjustment in relation to certain events, such as recapitalizations, stock dividends, stock splits, stock combinations, reclassifications or similar events affecting our Series B Preferred Stock.

Optional Conversion. At any time and from time to time, a holder of the shares of Series B Preferred Stock may, at its option, convert the holder’s shares of Series B Preferred Stock at a rate equal to the stated value divided by \$250.00.

Voting Rights. The Series B Preferred Stock will have no voting rights relative to matters submitted to a vote of our stockholders (other than as required by law). However, we may not, without the affirmative vote or written consent of the holders of a majority of the then issued and outstanding Series B Preferred Stock: (i) amend or waive any provision of the certificate of designation or otherwise take any action that modifies any powers, rights, preferences, privileges or restrictions of the Series B Preferred Stock (other than an amendment solely for the purpose of changing the number of shares of Series B Preferred Stock designated for issuance as provided in the certificate of designation); (ii) authorize, create or issue shares of any class of stock having rights, preferences or privileges as to dividends or distributions upon a liquidation that are superior to the Series B Preferred Stock; or (iii) amend our certificate of incorporation in a manner that adversely and materially affects the rights of the Series B Preferred Stock.

Liquidation. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, the holders of shares of the Series B Preferred Stock then outstanding will be entitled to receive in cash out of the assets of the Company, whether from capital or from earnings available for distribution to its stockholders, before any amount will be paid to the holders of any of the capital stock of the Company of any class junior in rank to the Series B Preferred Stock.

Ranking. The Series B Preferred Stock ranks senior to our Class A Common Stock and Class B common stock, junior to our Series A Preferred Stock and Series AA Preferred Stock and pari passu with any other class of preferred stock created with rights, preferences and privileges substantially similar to that of the Series B Preferred Stock with respect to the preferences provided for in the Certificate of Designation as to distributions and payments upon the liquidation, dissolution and winding up of the Company.

Amendments. The Certificate of Designation may be amended by obtaining the affirmative vote of a majority of the outstanding shares of Series B Preferred Stock, voting separately as a single class.

Rights

In connection with a public offering of shares of our Class A Common stock in April 2025, we issued an aggregate of 120,000 (the “Rights”). Upon such date as the closing price of our Class A common stock on the Nasdaq Capital Market equals or exceeds \$25.00 (the “Trigger Price”) for three consecutive trading days (the “Rights Trigger Event”), each Right will automatically convert into one-one hundredth (1/100) of one share of Class A common stock. No additional consideration will be required to be paid by a holder of Rights in order to receive its additional shares upon the occurrence of the Rights Trigger Event, as the consideration related thereto has been included in the Unit purchase price paid for by investors in this offering. If we enter into a definitive agreement for a business combination in which we will not be the surviving entity, the definitive agreement will provide for the holders of Rights to receive the same per share consideration the holders of the Class A common stock will receive in the transaction on an as-converted into ordinary share basis, and each holder of a right will be required to affirmatively convert its rights in order to receive the 1/100 share underlying each Right (without paying any additional consideration) upon consummation of the business combination. More specifically, the Right holder will be required to indicate its election to convert the rights into underlying shares as well as to return the original rights certificates to us. The Rights expire on January 17, 2026.

As soon as practicable upon the occurrence of the Rights Trigger Event, we will direct registered holders of the Rights to return their Rights to our rights agent. Upon receipt of the Rights, the rights agent will issue to the registered holder of such Rights the number of full Class A common shares to which it is entitled. We will notify registered holders of the Rights to deliver their Rights to the rights agent promptly upon the occurrence of the Rights Trigger Event and have been informed by the rights agent that the process of exchanging their rights for Class A common shares should take no more than a matter of days. The foregoing exchange of Rights is solely ministerial in nature and is not intended to provide us with any means of avoiding our obligation to issue the shares underlying the Rights upon the occurrence of the Rights Trigger Event. Other than confirming that the Rights delivered by a registered holder are valid, we will have no ability to avoid delivery of the shares underlying the Rights.

The shares issuable upon conversion of the Rights will be freely tradable (except to the extent held by affiliates of ours). We will not issue fractional shares upon conversion of the Rights. Fractional shares will either be rounded down to the nearest whole share or otherwise addressed in accordance with the applicable provisions of Delaware law. As a result, a Right holder must hold Rights in multiples of 100 in order to receive shares for all of a holder’s Rights upon the occurrence of the Rights Trigger Event. Further, there are no contractual penalties for failure to deliver securities to the holders of the Rights upon the occurrence of the Rights Trigger Event.

We have agreed that, subject to applicable law, any action, proceeding or claim against us arising out of or relating in any way to the rights agreement governing the Rights will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and we irrevocably submit to such jurisdiction, which jurisdiction will be the exclusive forum for any such action, proceeding or claim. This provision applies to claims under the Securities Act but does not apply to claims under the Exchange Act or any claim for which the federal district courts of the United States of America are the sole and exclusive forum. We note, however, that there is uncertainty as to whether a court would enforce this provision and that investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder.

Series AAA Preferred Stock

On April 9, 2026, we filed a certificate of designation with the Delaware Secretary of State to establish our Series AAA Convertible Preferred Stock which we designate as “Series AAA Preferred Stock.” Our Series AAA Preferred Stock has the following voting powers, designations, preferences and relative rights, qualifications, limitations, or restrictions:

Stated Value. Each share of Series AAA Preferred Stock has an initial stated value of \$1,000.00, subject to appropriate adjustment in relation to certain events, such as recapitalizations, stock dividends, stock splits, stock combinations, reclassifications or similar events affecting the Company’s Series AAA Preferred Stock.

Dividends. The holders of the shares of Series AAA Preferred Stock will be entitled to receive a twelve percent (12%) annual, non-cumulative dividend payable quarterly, at the Company’s option, (i) in cash or (ii) in shares of the Company’s Class A common stock, at a price per share of Class A Common Stock equal to the lower of (A) the average closing price of Class A Common Stock as quoted on the principal trading market, if any, in which the shares of Class A Common Stock then trade (“Principal Market”) for the five trading days immediately preceding the date of issuance, or (B) the closing price of the Class A Common Stock as quoted on the Principal Market on the trading day prior to the date of issuance.

Optional Conversion. At any time and from time to time, a holder of the shares of Series AAA Preferred Stock may, at its option, convert (i) up to thirty three and one-third percent (33.3%) of the holder's total shares of Series AAA Preferred Stock (the "First Tranche Convertible Shares") at a rate equal to the stated value divided by \$2.50 (the "First Tranche Conversion Rate"), (ii) up to thirty three and one-third percent (33.3%) of the holder's total shares of Series AAA Preferred Stock (the "Second Tranche Convertible Shares") at a rate equal to the stated value divided by \$3.50 (the "Second Tranche Conversion Rate"), and (iii) up to thirty three and one-third percent (33.3%) of the holder's total shares of Series AAA Preferred Stock (the "Third Tranche Convertible Shares") at a rate equal to the stated value divided by \$4.50 (the "Third Tranche Conversion Rate").

Voting Rights. Except as provided in the Series AAA COD or under Delaware law, the holders of shares of the Series AAA Preferred Stock do not have voting rights.

Liquidation. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, the holders of shares of the Series AAA Preferred Stock then outstanding will be entitled to receive in cash out of the assets of the Company, whether from capital or from earnings available for distribution to its stockholders, before any amount will be paid to the holders of any of the capital stock of the Company of any class junior in rank to the Series AAA Preferred Stock.

Ranking. The Series AAA Preferred Stock ranks senior to the Company's Series B Convertible Preferred Stock, Class A Common Stock and Class B common stock and pari passu with the Company's Series A Convertible Preferred Stock and Series AA Cumulative Redeemable Preferred Stock, with respect to the preferences provided for in the Certificate of Designation as to distributions and payments upon the liquidation, dissolution and winding up of the Company.

Redemption. The Company has the right to redeem the outstanding shares of the Series AAA Preferred Stock at an amount equal to the Liquidation Preference, provided that the holders of Series AAA Preferred Stock are granted thirty (30) calendar days to first exercise their conversion rights. "Liquidation Preference" means, with respect to each outstanding share of Series AAA Preferred Stock, the sum of: (i) the amount of all accrued but unpaid dividends on such share; plus (ii) the stated value.

Amendments. The Certificate of Designation may be amended by obtaining the affirmative vote of a majority of the outstanding shares of Series AAA Preferred Stock, voting separately as a single class.

Listing. The Series AAA Convertible Preferred Stock will not be listed on the Nasdaq Capital Market or any other exchange or trading market. The Company does not plan on making an application to list the Series AAA Convertible Preferred Stock on the Nasdaq Capital Market, any other national securities exchange or any other nationally recognized trading system. The Class A Common Stock issuable upon conversion of the Series AAA Convertible Preferred Stock is listed on the Nasdaq Capital Market under the symbol "CWD."

Anti-Takeover Provisions

Certificate of Incorporation and Bylaws and Class B Common Stock

Because our stockholders do not have cumulative voting rights, our stockholders holding a majority of the outstanding shares of common stock outstanding will be able to elect all of our directors.

The foregoing provisions will make it more difficult for our existing stockholders to replace our Board of Directors as well as for another party to obtain control of us by replacing our Board of Directors. Since our board of directors has the power to retain and discharge our officers, these provisions could also make it more difficult for existing stockholders or another party to effect a change in management. In addition, the authorization of undesignated preferred stock makes it possible for our Board of Directors to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to change our control.

These provisions are intended to enhance the likelihood of continued stability in the composition of our Board of Directors and its policies and to discourage certain types of transactions that may involve an actual or threatened acquisition of us. These provisions are also designed to reduce our vulnerability to an unsolicited acquisition proposal and to discourage certain tactics that may be used in proxy fights. However, such provisions could have the effect of discouraging others from making tender offers for our shares and may have the effect of deterring hostile takeovers or delaying changes in our control or management.

In addition, the control vested in our founders by virtue of their holding of Class B common stock may discourage or impede takeover activities.

Section 203 of the Delaware General Corporation Law

We are subject to Section 203 of the Delaware General Corporation Law, which prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years after the date that such stockholder became an interested stockholder, with the following exceptions:

- before such date, the board of directors of the corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;
- upon closing of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction began, excluding for purposes of determining the voting stock outstanding (but not the outstanding voting stock owned by the interested stockholder) those shares owned by (i) persons who are directors and also officers and (ii) employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or
- on or after such date, the business combination is approved by the board of directors and authorized at an annual or special meeting of the stockholders, and not by written consent, by the affirmative vote of at least 66 2/3% of the outstanding voting stock that is not owned by the interested stockholder.

In general, Section 203 defines business combination to include the following:

- any merger or consolidation involving the corporation and the interested stockholder;
- any sale, transfer, pledge or other disposition of 10% or more of the assets of the corporation involving the interested stockholder;
- subject to certain exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder;
- any transaction involving the corporation that has the effect of increasing the proportionate share of the stock or any class or series of the corporation beneficially owned by the interested stockholder; or
- the receipt by the interested stockholder of the benefit of any loss, advances, guarantees, pledges or other financial benefits by or through the corporation.

In general, Section 203 defines an “interested stockholder” as an entity or person who, together with the person’s affiliates and associates, beneficially owns, or within three years prior to the time of determination of interested stockholder status did own, 15% or more of the outstanding voting stock of the corporation.

Exclusive forum for adjudication of disputes provision which limits the forum to the Delaware Court of Chancery for certain stockholder litigation matters actions against the Company, which may limit an investor’s ability to obtain a favorable judicial forum for disputes with the Company or its directors, officers, employees or stockholders.

Section 7.06(a) of Article VII of our Bylaws dictates that, unless we consent in writing to the selection of an alternative forum, the Delaware Court of Chancery (or, if the Delaware Court of Chancery does not have jurisdiction, the federal district court for the State of Delaware) is, to the fullest extent permitted by law, the sole and exclusive forum for certain actions including derivative action or proceeding brought on behalf of the Company; an action asserting a breach of fiduciary duty owed by an officer, director, employee or to the stockholders of the Company; any claim arising under Delaware corporate law, our amended and restated certificate of incorporation or our amended and restated bylaws; and any action asserting a claim governed by the internal affairs doctrine. Any person or entity purchasing or otherwise acquiring any interest in shares of capital stock of the Company shall be deemed to have notice of and consented to the provisions of Section 7.06 of Article VII of our Bylaws.

However, Section 7.06(a) of Article VII of our Bylaws will not apply to suits brought to enforce any liability or duty created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction. To the extent that any such claims may be based upon federal law claims, Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder.

Furthermore, unless the Company consents in writing to the selection of an alternative forum, the federal district courts of the United States of America will be the exclusive forum for the resolution of any complaint asserting a cause of action arising under the Securities Act, or the rules and regulations promulgated thereunder. We note, however, that Section 22 of the Securities Act creates concurrent jurisdiction for federal and state courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder. There is uncertainty as to whether a court would enforce this provision and that investors cannot waive compliance with the federal securities laws and the rules and regulations thereunder.

A Delaware corporation is allowed to mandate in its corporate governance documents a chosen forum for the resolution of state law-based stockholder class actions, derivative suits and other intra-corporate disputes. With respect to such state law claims, the Company's management believes limiting state law based claims to Delaware will provide the most appropriate outcomes as the risk of another forum misapplying Delaware law is avoided, Delaware courts have a well-developed body of case law and limiting the forum will preclude costly and duplicative litigation and avoids the risk of inconsistent outcomes. Additionally, Delaware Chancery Courts can typically resolve disputes on an accelerated schedule when compared to other forums.

The choice of forum provisions contained in the Company's Bylaws may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with the Company or any of its directors, officers, other employees or stockholders, which may discourage lawsuits with respect to such claims. Alternatively, the enforceability of similar choice of forum provisions in other issuers' bylaws and certificates of incorporation has been challenged in legal proceedings, and it is possible that in connection with any applicable action brought against the Company, a court could find the choice of forum provisions contained in the Company's Bylaws to be inapplicable or unenforceable in such action. As a result, the Company could incur additional costs associated with resolving such actions in other jurisdictions, which could harm the Company's business, operating results and financial condition.

The aggregate proceeds to the Selling Stockholders from the sale of the Class A common stock offered by them will be the purchase price of the Class A common stock less discounts or commissions, if any. The Selling Stockholders reserves the right to accept and, together with their agents from time to time, to reject, in whole or in part, any proposed purchase of Class A common stock to be made directly or through agents. We will not receive any of the proceeds from this offering. However, we will benefit from the extinguishment of the notes which are cancelled in connection with note conversions.

The Selling Stockholders also may resell all or a portion of the shares in open market transactions in reliance upon Rule 144 under the Securities Act of 1933, provided that they meet the criteria and conform to the requirements of that rule.

The Selling Stockholders and any underwriters, broker-dealers or agents that participate in the sale of the Class A common stock or interests therein may be “underwriters” within the meaning of Section 2(a)(11) of the Securities Act. Any discounts, commissions, concessions or profit they earn on any resale of the shares may be underwriting discounts and commissions under the Securities Act. Selling stockholders who are “underwriters” within the meaning of Section 2(a)(11) of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act.

To the extent required, the shares of our Class A common stock to be sold, the names of the Selling Stockholders, the respective purchase prices and public offering prices, the names of any agents, dealer or underwriter, any applicable commissions or discounts with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement that includes this prospectus.

In order to comply with the securities laws of some states, if applicable, the Class A common stock may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the Class A common stock may not be sold unless it has been registered or qualified for sale or an exemption from registration or qualification requirements is available and is complied with.

We have advised the Selling Stockholders that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of shares in the market and to the activities of the Selling Stockholders and its affiliates. In addition, to the extent applicable we will make copies of this prospectus (as it may be supplemented or amended from time to time) available to the Selling Stockholders for the purpose of satisfying the prospectus delivery requirements of the Securities Act.
